VINEYARDS

Vineyards in the north of Greece (Drama region of Macedonia) with 15-60 year old vines. Wholly sustainable.

SOIL

Diverse range of soil characteristics.

CLIMATE

A warm and temperate climate with an average temperature of 14C and rainfall of 520mm. Heated summers with mild, wetter winters.

WINERY

Founded in 2015 by celebrated Greek wine maker Nikos Karatzas, Oenops is the most newly established winery in the region of Drama. Its main goal is to produce the highest quality wines in limited quantities. The grapes are sourced from personally selected vineyards from Drama and surrounding areas of Macedonia, cultivated by ambitious winegrowers.

VINIFICATION METHOD

The Cabernet Sauvignon is fermented in small inox tanks, while the Xinomavro and Limniona are fermented in larger barrels of 5hl. Nine months of ageing with lees follows before the blending and bottling of the wines.

SERVING SUGGESTIONS

Pairs well grilled meats, cold cuts and cheese. Compliments dishes with spicy sauces.
