THE LIQUOR

Thrace Ouzo 7 is a soft, sweet ouzo with a delicate flavor composed of a unique but traditional blend of Greek anise and herbs.

PRODUCTION

Fresh water, anise, coriander and fennel seeds are combined and distilled together. The product of the first distillation is then distilled again before being separated in to three parts. The middle or “heart” of the second process is extracted, blended with fresh water to lower the alcohol content and placed in a stainless steel tank for approximately 20 days. After this, the ouzo is filtered and bottled.

SERVING SUGGESTIONS

Serve with cold water in a small glass and add ice for the traditional Greek experience. Goes well with small bites, sharp and appetizer flavors, or meze.

CHARACTERISTICS:

Fragrant aromas of anise and aromatic herbs

Aromatic and lingering aftertaste
