

THYMIPOULOS  
VINEYARDS

# ATMA Assyrtiko 2024

## HARVEST

September 2024

## VINIFICATION

Fermentation takes place in stainless steel tanks in low temperature and the wine spends 2 months with its lees.

## VINEYARDS

Scattered higher altitude plots throughout Macedonia

## SOIL

Schist and granite

## MICROCLIMATE

The climate in Macedonia is warm continental. The chosen vineyards coming from a higher altitude provide lower temperature. The diurnal range during ripening season postpones the harvest and retained freshness and elegance

**TYPE:** WHITE DRY WINE
